Chicago, Oct. 25.—Attorneys for John H. Heil, ousted from his position as principal of Morgan Park high school after being accused of writing "poison pen" letters about Mrs. Marie Moore, declared today they believed Heil innocent and a victim of black-mailers. They planned to carry the case to the grand Jury. Mrs. Heil is standing by her husband. She says he did not write the letters.

NEFD 600 CARS AT DODGE.

Acute Shortage Reported on Western Division of Santa Fe.

Hutchinson, Kan., Oct. 25.—The western division of the Santa Fe is short just 500 freight cars today. There are orders in the Dodge City office for 500 more cars than the road can supply. As a result wheat valued at more than one million dollars can not be moved, and instead of being on its way to market will remain in the elevators the farmers bins or piled on the ground at the stations along the Santa Fe.

"The situation is bad, especially in the smaller towns," said C. A. Walker, division freight agent. "We are doing our best but with all the elevators full of wheat and managers begging for cars it is impossible to supply all of them. It is possible the situation may take a change for the better in another week."
